Connecticut Self-Verification Guide

Detecting Possible Misuse of Benefits and Services in Your Name (Parents, Caregivers, and Guardians)

Prepared by: Tocsin Data

Date: January 2, 2026

Purpose: This document provides a Connecticut-specific, legally safe pathway for parents, caregivers, and guardians to verify whether public benefits or services were billed, paid, or claimed using their own identity or that of a dependent, and outlines official steps to take when discrepancies are identified.

Introduction

Connecticut does not provide a single public, name-searchable clearinghouse that aggregates all benefit payments, child care subsidies, and health claims. Records are maintained by individual agencies and contractors under state and federal confidentiality rules. The recommended approach is **self-verification**: review official records you are legally entitled to access, confirm provider and program details using official tools, then escalate concerns through official dispute or fraud-reporting channels if warranted.

Section 1 — Licensed / Regulated Child Care Verification (Connecticut OEC)

Child care licensing and oversight in Connecticut are administered by the Connecticut Office of Early Childhood (OEC). OEC directs families to the official 2-1-1 Child Care search tool to look up child care programs and verify key program information.

1.1 Official provider/program lookup (public)

Section 2 — Child Care Subsidy / Voucher Program (Care 4 Kids)

Connecticut's child care subsidy program is Care 4 Kids (sponsored by the Connecticut Office of Early Childhood). If you suspect a subsidy was used in your name or your child's name, review any official notices you received and use the official program portals below to verify application or redetermination status and request clarification through Care 4 Kids administrators.

2.3 What parents/guardians should review

- Eligibility/authorization notices (approved dates, provider name, and child identifiers).
- Provider identity and program details using the official lookup tools (Section 1.1–1.2). [1] [2]
- Dates of care/attendance versus your own records (calendar, messages, receipts, or other documentation you possess).
- Whether subsidy activity appears to continue after withdrawal, provider change, or non-attendance.

Section 3 — Medicaid / Health Claims Verification (HUSKY Health) and Fraud Reporting

Connecticut Medicaid services are associated with HUSKY Health (including managed care arrangements). Health services billed under Medicaid generate claims records. If you suspect services were billed in your name or your child's name, request and review claims/EOB-style history through your plan or member channels, then report suspected fraud through official channels.

Section 4 — Public Records Requests (Connecticut FOI Act — Chapter 14)

Connecticut public records access is governed by the Connecticut Freedom of Information Act (Chapter 14 of the Connecticut General Statutes). Records involving minors, individual benefit cases, and protected health information may be exempt or restricted; however, parents/guardians can request records they are legally entitled to receive and request written explanations for denials/redactions.

Section 5 — Reporting Suspected Benefit Fraud (Connecticut DSS)

If you suspect misuse of benefits or services, preserve documentation first (letters, notices, provider names, dates, and any case identifiers you lawfully possess), then report through official channels only. Avoid public accusations. If you are uncertain which program is involved, request written confirmation of what is on file for your household through the responsible agency.

Section 6 — Public “Red Flag” Patterns (For Awareness Only)

The following markers do not prove misconduct, but they can indicate when additional verification is warranted:

- **Date mismatch:** payments/claims on days the child was not in care or not receiving the service.
- **Provider mismatch:** provider listed that the family never used.
- **Duration mismatch:** billing continues after termination/withdrawal.
- **Authorization mismatch:** billed hours exceed authorized scope.
- **Identity mismatch:** records referencing a child/dependent you do not recognize.
