North Dakota Self-Verification Guide

Detecting Possible Misuse of Benefits and Services in Your Name (Parents, Caregivers, and Guardians)

Prepared by: Tocsin Data

Date: January 2, 2026

Purpose: This document provides a North Dakota-specific, legally safe pathway for parents, caregivers, and guardians to verify whether public benefits or services were billed, paid, or claimed using their own identity or that of a dependent, and outlines official steps to take when discrepancies are identified.

Introduction

North Dakota does not operate a public, name-searchable clearinghouse that aggregates all benefit payments or claims. Records are maintained by individual agencies under state and federal confidentiality requirements. The correct approach is **self-verification**: review official records you are legally entitled to access, then escalate concerns through formal dispute or fraud-reporting channels if needed.

Section 1 — Licensed Child Care Verification (ND DHS)

Child care licensing and oversight in North Dakota are administered by the North Dakota Department of Human Services (ND DHS), Early Childhood Services Division.

2.3 What parents/guardians should review

- Eligibility and authorization notices
- Approved provider name and authorized dates

Section 3 — Health Coverage Claims (North Dakota Medicaid)

Health services billed under North Dakota Medicaid generate claims records. Reviewing claims or explanation-of-benefits style statements is the primary method for detecting services billed in your or your child's name.

Section 4 — Public Records Requests (North Dakota Open Records Law)

Public access to government records in North Dakota is governed by the North Dakota Open Records Law (N.D.C.C. Chapter 44-04). Records involving minors or individual benefit/health cases may be exempt; however, parents and guardians may request records they are legally entitled to receive.
